

Sr.No.	Instrument	Parameter	Charges(in Rs.)
1	Gas Chromatography (FID)	Method development charges (Eight man hours of work)	5000/-per project
2	Gas Chromatography (FID)	Assay	2000/-per sample
3	Gas chromatography with Headspace (FID)	Residual solvent (single solvent) analysis. For each extra peak Rs.200	3000/-per sample
4	Gas chromatography with Headspace (FID)	Residual solvent analysis. (GMP)	1000/-per injection (Run time not more than 45 min)
5	Gas chromatography with Mass Spectrometer	GC-MS (EI analysis)	4000/-per sample with one peak identification each extra peak Rs.200
6	Gas chromatography with Headspace and Mass Spectrometer	GCHS-MS (EI analysis)	5000/-per sample with one peak identification each extra peak Rs.200
7	High Performance Liquid Chromatography	Method development charges (Eight man hours of work)	5000/-per project
8	High Performance Liquid Chromatography (non-GMP)	Assay	2000/-per sample
9	High Performance Liquid Chromatography (non-GMP)	Related substances on PDA	3000/-per sample
10	High Performance Liquid Chromatography (GMP)	Related substances on PDA	1000/-per injection (Run time not more than 45 min)
11	IR Spectroscopy	Identification	1000/- per sample

Note : For academicians and students, based on the complexities of analysis management may consider discount in testing charges.
